

Trust ValleyMLS Tech Services to keep your business running with our experienced technical services and “extra-mile” customer support!

Whether you are in need of Technology Services in your home, at your business, or carry in to us – our Members are our priority. Our IT team are experts to help you remain up to date on the latest advancements and best practices.

Most REALTORS®/Members have neither the time nor the desire to spend hours keeping their technology solutions up to date. Since we offer these services only to our members, our resources are dedicated to providing technical support, services and tailored solutions to meet REALTORS® & Members specific real estate needs.

Trust us to keep your business running with our experienced technical services and “extra-mile” customer support!

As a member of NALMLS/HAAR, one of the benefits you receive is a Technology Services Department that is dedicated to providing the ultimate technical services and solutions tailored specifically for our Members IT needs. These services are at a reduced rate to help maximize the amount you spend for computer and technology support.
